FROM THE ANVIL

We are specialist manufacturers of handmade ironmongery and lighting with more than twenty years experience of designing and engineering quality fittings. We aim to produce beautiful, functional products which are honed to the highest specifications and unsurpassed by others.

We mix CNC technology and hot forging with our signature anvil hammer work to produce the largest selection of handmade ironmongery in the UK. Our skilled team use quality base materials such as mild steel, solid bronze and solid brass to produce the finest products. Our extensive range includes more than 3000 products including door furniture, window furniture, cabinet fittings, lighting and other home accessories. Much of our product offering is available on a next day delivery service through our reliable network of registered From The Anvil distributors.

For more information on how to buy, please visit: www.fromtheanvil.co.uk/how-to-buy

OUR FINISHES

Our specialist finishes have been carefully developed and refined over many years and most are completely unique to us. We are proud to offer a wide variety of hand-applied, high-quality finishes that give our customers an abundance of choice.

BEESWAX
FOR INTERNAL USE ONLY

Beeswax is the most authentic finish for steel. After forging, the colours in the steel range from blue to deep red ochre. To preserve these colours, our products are dipped into hot beeswax which gives a subtle, matt richness and offers excellent protection when the products are fitted internally. An extremely natural finish and a far softer alternative to a black powder coated finish.

EXTERNAL BEESWAX
FOR INTERNAL & EXTERNAL USE

Our external beeswax is unique to From The Anvil and is manufactured from an anti-corrosive beeswax. It has a matt richness and like our standard beeswax, the depth of colour ranges from blue to deep red ochre. An extremely natural finish and a far softer alternative to a black powder coated finish.

BLACK
FOR INTERNAL & EXTERNAL USE

Our black finish is a popular choice in traditional settings, it has a subtle sheen and offers a bold contrast on both stained and painted timber alike. It is baked in a high-temperature oven giving it durable corrosion resistant properties. This finish is extremely low maintenance and perfect for use in bathrooms, kitchens or externally where damper environmental conditions are expected.

MATT BLACK
FOR INTERNAL & EXTERNAL USE

Our refined matt black finish has a distinct contemporary feel. Naturally, it looks great in ultra-modern interiors, but this versatile finish is timeless and will create a sophisticated statement in traditional or more rustic settings too. The matt black finish is applied to a base material of solid steel and then baked in a high temperature oven, resulting in a subtle black patina that emphasises the products clean silhouette.

Our products have excellent anti-corrosive properties when maintained to specific requirements for each finish and will last many years if given just a little regular care. To help you maintain your chosen finish, our website includes specific maintenance and care guides tailored to each finish within our range, this will ensure your products last for many years to come!

PEWTER PATINA
FOR INTERNAL & EXTERNAL USE

Our pewter patina finish is forged from a durable base of steel and is a fine example of how our unique manufacturing techniques add further detail to the natural charm of metals. The process by which the contrasting textures of this finish are created results in a rich appearance that sits well in characterful, rustic homes but also offers a contemporary alternative in more modern settings.

ANTIQUE PEWTER
FOR INTERNAL & EXTERNAL USE

The antique pewter finish is the result of a complex process applied to solid brass, offering an attractive alternative to pewter patina. As this finish is applied to brass rather than steel, it has fewer textural marks making it smoother than our pewter patina finish.

NATURAL SMOOTH
FOR INTERNAL USE ONLY

Our natural smooth products are made from a natural cast iron and finished with a clear matt lacquer. This produces a beautifully smooth look and offers a simplistic charm with versatile attributes, making it suitable for both traditional and contemporary settings.

NATURAL TEXTURED
FOR INTERNAL USE ONLY

Our natural textured products are made from a natural cast iron and finished with a clear matt lacquer. Although the product surfaces are smooth, the complex finishing adds a depth of texture to each product, offering an abundance of character for traditional settings.

We do not recommend using our products externally in coastal areas due to the high levels of atmospheric salt, as this will rust or tarnish most finishes. Only certain grades of stainless steel will not rust in these environments and therefore our products cannot be guaranteed for such use.

IRON
FOR INTERNAL & EXTERNAL USE

Made from solid iron, this finish highlights the natural beauty and texture of the metal. It is cast and finished with a clear powder coating to protect the iron from weather and moisture, this also gives it a rich depth and subtle sheen.

POLISHED BRASS
FOR INTERNAL & EXTERNAL USE

Made from solid unlacquered brass, this finish is both classic and simplistic and offers great possibilities for stately and period dwellings alike, particularly where a very traditional look is desired. When fully polished this finish has a depth of reflection. Alternatively this finish can be left to age naturally, which over time will create a beautifully historic finish.

LACQUERED BRASS
FOR INTERNAL & EXTERNAL USE

Made from a solid brass base material with a quality lacquer applied to its surface. This finish is designed to avoid discolouration and oxidation, making it a great choice if low maintenance is desired. We recommend avoiding the use of any chemicals or cleaning products on this finish to prevent a breakdown of the lacquered top-coat.

AGED BRASS
FOR INTERNAL & EXTERNAL USE

Our aged brass products are made from solid unlacquered brass, offering an abundance of character and charm. This finish is perfectly suited to period dwellings and will create a statement throughout. Due to the accelerated ageing process this finish undergoes, a darker patina gathers around the edges and recesses to contrast beautifully with the re-polished surface areas.

Please make sure any newly plastered or painted rooms are fully cured before fitting your ironmongery, as moisture may tarnish or rust some finishes. When painting, staining or plastering we recommend that all ironmongery is removed.

PVD BRASS
FOR INTERNAL & EXTERNAL USE

A PVD finish is made from stainless steel and stands for 'Physical Vapour Deposition'. PVD is designed to avoid discolouration, making it a great choice if low maintenance is desired.

POLISHED BRONZE
FOR INTERNAL & EXTERNAL USE

Manufactured from solid bronze containing a minimum of 85% copper, this finish can be described as a 'living finish' that adapts to its surroundings. This finish is firstly aged and then re-polished, which creates a subtle contrast between the lighter surface areas and the darker detailed areas of each product. A perfect choice for both contemporary and traditional settings.

AGED BRONZE
FOR INTERNAL & EXTERNAL USE

This finish is manufactured from solid bronze containing a minimum of 85% copper. The finish starts off extremely dark with a rich, matt look due to the process used to age the metal. However, the finish will gradually lighten over time with use, revealing the warmer copper undertones and achieving a contrasting depth of character.

POLISHED NICKEL
FOR INTERNAL & EXTERNAL USE

Our polished nickel finish is a high-quality plating applied to solid brass. This finish is bright, reflective and extremely versatile. It is very well suited to modern properties but equally matched to traditional settings due to the warm, calm tones. As our nickel finish is made using only one plating on brass, it offers a subtle warmth that cannot be replicated by more modern chrome finishes.

Please avoid using any form of chemical cleaner, e.g. oxalic acid or aerosol sprays to clean products, as this can permanently damage any finish. Only use our recommended products to clean, oil and maintain the life of your product.

POLISHED CHROME
FOR INTERNAL & EXTERNAL USE

Our polished chrome products are made from a base metal of solid brass with a high quality chrome plating applied to the surface. A high sheen finish that is most commonly used in contemporary settings. This finish offers bright, bold and reflective qualities which work best if a clean, cool look is desired.

SATIN CHROME
FOR INTERNAL & EXTERNAL USE

Satin chrome is created from a base metal of solid brass with a quality chrome plating applied to its surface. Satin chrome offers an understated alternative to polished chrome. Its blue traces and less reflective appearance make this finish popular with those who wish to elect a matt finish.

EBONY
FOR INTERNAL & EXTERNAL USE

An ebonised finish made from rosewood timber which is favoured for its rich, dark tones. When paired with brass it accentuates the traditional look and when used with nickel or chrome it creates a more contemporary feel.

ROSEWOOD
FOR INTERNAL & EXTERNAL USE

Made from high quality rosewood timber and waxed to enhance and protect its rich, red hue and characterful veining. When paired with brass it accentuates the traditional look and when used with nickel or chrome it creates a more contemporary feel.

THE COLLECTIONS

Our latest brochure is designed to offer a summary of our product range and has been compiled to help you choose your preferred designs and finishes. Our range offers complete consistency if you wish to create uniformity throughout your property and our vast array of designs suit a multitude of property types, including contemporary and traditional.

To view our full range and for further information on all product options, please visit: www.fromtheanvil.co.uk
Our website also contains a wealth of product and property inspiration, technical advice and much more.

Avon lever handles are our signature design and are extremely popular for their simplicity. The lever is hammered into shape by hand, giving it a contemporary yet individual edge.

N.B. prices are correct as of 1st July 2021 - please see website for all up-to-date pricing.

Inspired by the medieval period, the Gothic range of handles were amongst one of the first designs we manufactured. The levers of both these designs are hammered into shape by hand. Whilst the Gothic lever is straight and angular, the Gothic Curved has a much smoother form.

N.B. prices are correct as of 1st July 2021 - please see website for all up-to-date pricing.

Our extensive selection of door knockers can suit a wide variety of doors, offering both traditional and contemporary designs. We have options that suit narrower doors with panels/glazing panels which have less room for door furniture to be fitted. We also manufacture door knockers with larger backplates that suit large feature doors.

Our heavy mortice/rim knob sets are available in a huge choice of designs and finishes. Many of our Period door knobs are based on original Victorian designs and are perfect for an authentic restoration project or adding a touch of timeless design to a more contemporary interior. Our charming Blacksmith knob sets create a rustic look. The large majority of our knob sets are supplied with loose collars to ensure they can be flush fitted to doors or alternatively used in conjunction with a rim lock.

N.B. prices are correct as of 1st July 2021 - please see website for all up-to-date pricing.

Rim locks are the oldest type of locking device and have been used since the Medieval period. A popular choice in period properties, historic buildings or country cottages to further enhance feature doors. Rim locks are fitted to the surface of a door and are a great option if your door is not thick enough to fit an internal locking mechanism, but can also be used on thicker doors simply as a style choice. We offer a range of rim locks and latches in different finishes as well as a large collection of accompanying knobs and escutcheons.

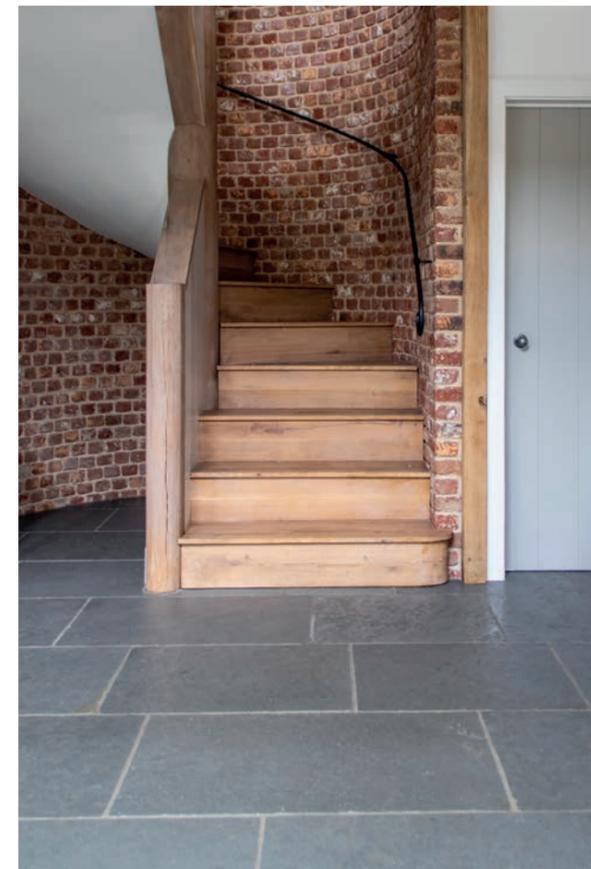

RIM LOCKS & LATCHES
THE COLLECTION

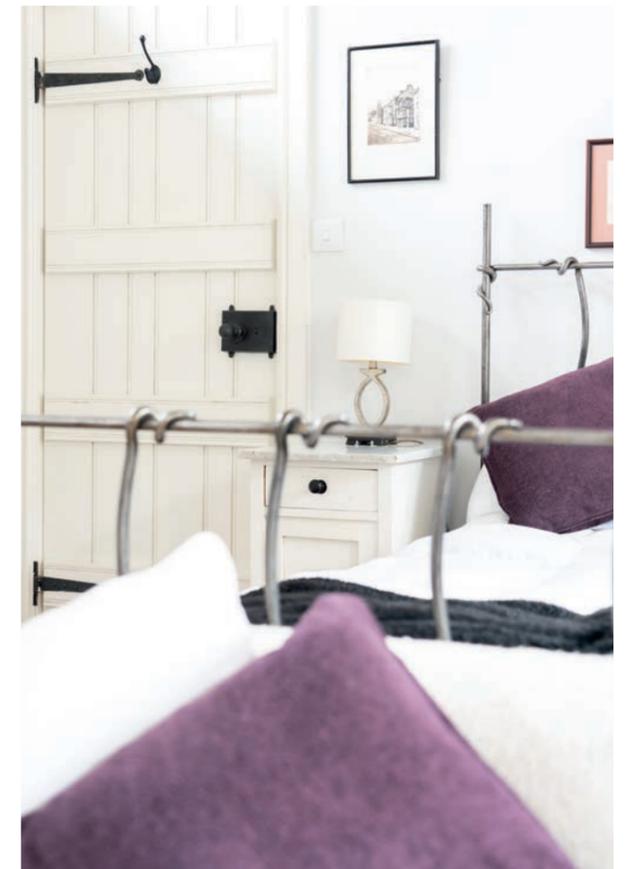

Iron Right Hand Rim Lock - Large (Mushroom Knob)

Pewter Rim Lock & Cast Iron Cover (Octagonal Knob)

Pewter Rim Lock & Cast Iron Cover (Round Knob)

Beeswax Rim Lock & Cast Iron Cover (Round Knob)

Traditionally used on ledge and braced doors, thumbblatches are decorative door latches with a thumb shaped lever. When this is pressed, it operates the thumb bar that passes through the door, which inturn lifts the latch on the opposite side, causing the door to open.

N.B. prices are correct as of 1st July 2021 - please see website for all up-to-date pricing.

CABINET KNOBS

THE COLLECTION

N.B. prices are correct as of 1st July 2021 - please see website for all up-to-date pricing.

Our extensive collection of cabinet knobs can be used in many ways, whether you are refurbishing furniture, fitting wardrobes or installing a new kitchen, our choice of ironmongery will add the finishing touch. We offer a vast choice of styles and finishes, including hand-forged products that sit well in rustic country homes or timeless period designs. Choose aged brass or bronze for a classic look or polished bronze, nickel or chrome for a more contemporary feel.

We manufacture drawer pulls & pull handles in a huge variety of styles and sizes for use on kitchens, wardrobes or doors. Our signature Gothic and Bean pull handles are forged from a single piece of steel and are at home in any barn conversion or country cottage. Our drawer pulls come in many finishes and cater for any look. Choose our concealed pulls for use in modern interiors or opt for face fixed pulls if a more traditional look is desired. Pair with our matching cupboard knobs to complete the look.

pricing.

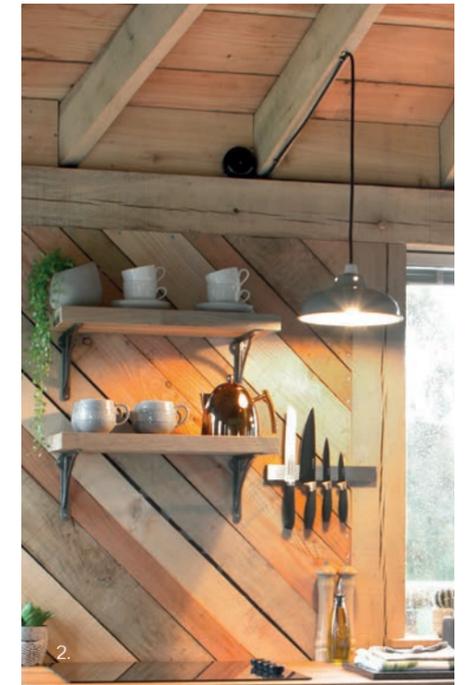

Our traditional shelf, handrail and mending brackets are designed to be useful and look great too. Use our shelf brackets to create feature open shelving and our handrail brackets to add character to timber staircases. Our mending brackets are suited to traditional doors or windows that require added strength in a decorative form. Choose from authentic beeswax, unique pewter or glossy black.

MANUFACTURING & BESPOKE PROJECTS

Forging mild steel and hot forging brass are the two key production methods behind our collection of ironmongery and are what makes From The Anvil unique.

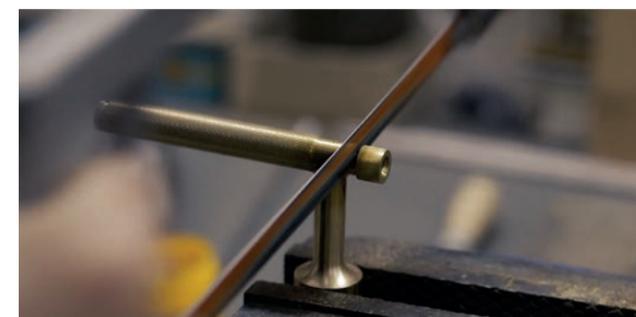

We mix CNC technology and hot forging with traditional anvil hammer work to produce the largest selection of handmade ironmongery in the UK. Our extensive range includes diverse designs to suit many property types.

Many years of experience and a wealth of ingenuity has established From The Anvil as an accomplished manufacturer of high-end ironmongery, specialising in the manufacturing of products made from mild steel, solid brass and solid bronze.

Located in Mid-Wales, our broad site houses a large showroom, offices, warehouses, workshops, a manufacturing and finishing plant and our design hub.

Our extensive setup allows us to hold vast stock, enabling us to achieve swift delivery times and fulfil the requirements of a wide-ranging client base. We have a large network of dedicated distributors throughout the UK. For more information on your nearest distributor, please visit: www.fromtheanvil.co.uk/how-to-buy

Customer satisfaction is very important to us and our team works hard to answer all enquiries and meet customer demand. If you have any special product requirements, we will happily consider any bespoke work such as custom finishes or manufacturing. Our experienced technicians can assist with the design process or follow your requirements.

For further information about our bespoke manufacturing service or to discuss any product alterations, please contact: bespoke@fromtheanvil.co.uk
